面积: 广场: 2.5 英亩

主要顾问: Jorge De Questa Inc.

Description

ADP Corporation constructed two office buildings that formed a central pedestrian plaza. Robert La Rocca & Associates designed the fountain and the plaza that welcome visitors into the space.

The fountain, with precast elements and fountain jets, serves a dramatic focal point for the plaza. The repetition of benches in the same precast units as the fountain unifies the plaza design. A grove of flowering pear trees provides welcome shade to visitors.

描述

A.D.P. 有限公司建造了两座办公楼, 形成一座中心广场。Robert La Rocca & Associates 创造了具有迎接性质的喷泉与广场设计。

此喷泉带有预铸的喷泉设施。预铸的长凳与喷泉部分形状一致, 通过重复达到统一。中心广场还种有梨树, 为行人提供了树荫。其它在公园周边的座位范围给予了公园的气氛。此广场还可当作室外餐厅。
