De Quesada Architects

Description

This retail strip development features a wide sidewalk which accommodates large landscape planters and an outdoor dining area. In one corner, a fountain was added as a wall to screen out the adjoining parking lot visually and acoustically. Flower pots are dotted throughout the public space to provide seasonal color. Lights are kept low to enhance the pedestrian scale. Seatwalls frame the geometric planting areas allowing efficient seating and public use.

描述

这个商业街有很宽的路边, 有大量种植和一个室外餐厅。在一个角落, 一座喷泉成为有隔音和视觉效果。此地也有许多花坛, 带来不同季节色彩。为照亮街旁, 灯光被保持很低。几何图形的座墙带给公共有效的休息场所。
