完结日期：1989年

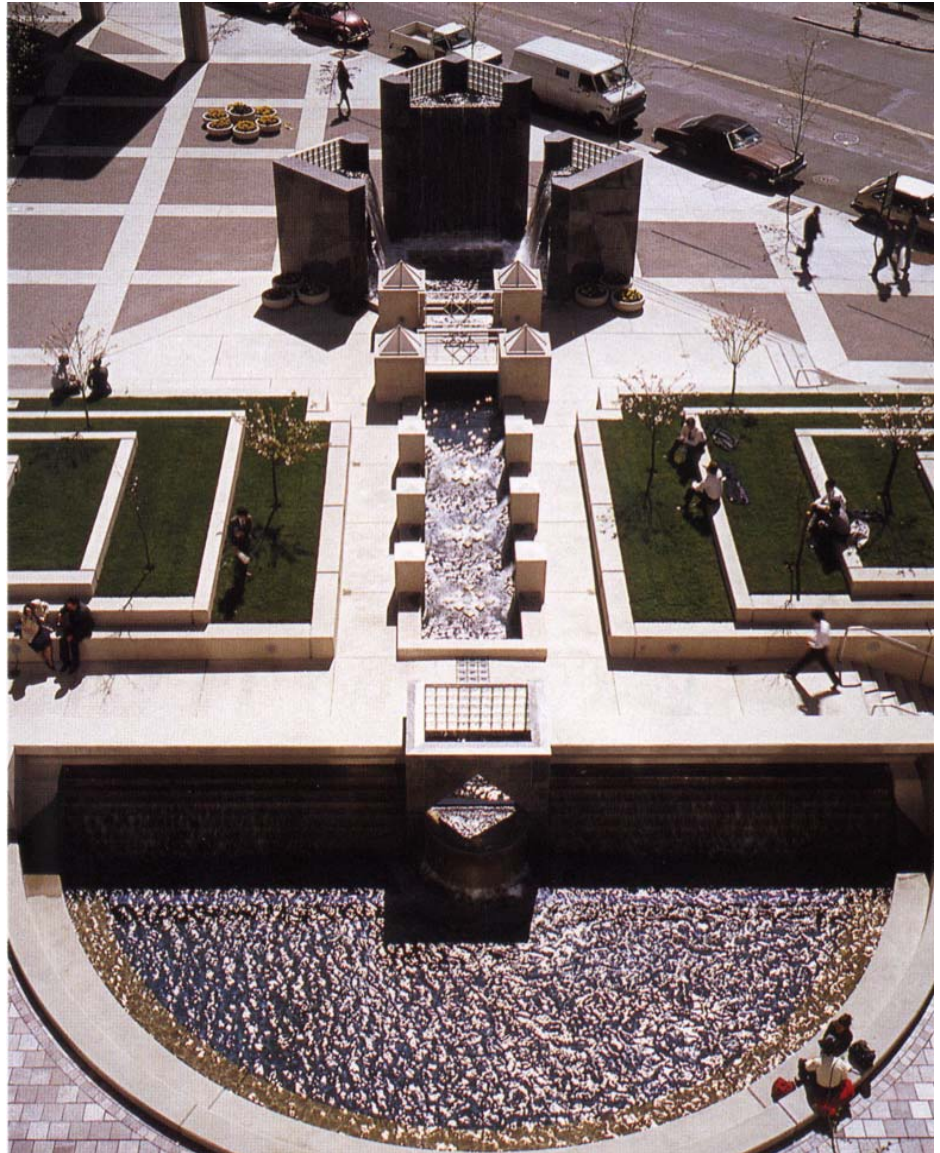

经费：\$1,500,000-广场

面积：

40,000 平方英尺

主要顾问：

Whistler/Patri, AIA

Description

Marathon Plaza is the largest commercial plaza south of Market Street. It is designed as the front door to two major office buildings. The Plaza fronts on 2nd Street with a tower waterfall. The water cascades at 3,000 gallons per minute into a water feature that cuts diagonally across the plaza. The water feature ends in a depressed plaza with seating niches where users can sit and eat lunch and enjoy the sun.

Grass terraces step up and form two "hill locks" with cherry blossom trees that bloom in the spring creating a delightful setting. The plaza is designed for great flexibility from outdoor eating areas to arena for noon time concerts.

描述

马拉松广场是市场街以南最大的商业广场。它被设计为两大办公楼的前门。此广场将一座楼塔式喷泉面对第二大街。水以每分钟3,000吨落入一座横切广场的水池中。最后结束于一座水池，可供人们休息的地带。

方行草地坛形成两座梯形丘，种有樱花树的梯形丘在四月成为愉快的场所。此广场具有灵活性，可用于室外娱乐如野餐和室外音乐会。
